To Whom It May Concern:

VanMar Constructors Inc (VanMar) has completed a number of non market housing projects for non-profit housing societies funded by BC Housing. These projects have included a range of wood frame and non combustible building forms and have been delivered through a variety of contracts including design-build, construction management and design-tender,

Since 2002 VanMar has completed eight projects, are currently building three more and are in the pre-construction stage on six other projects. Prior to 2002, VanMar's parent company has completed in excess of 2,000 housing units for non profit societies funded by BC Housing.

The services provided by VanMar have been delivered to the satisfaction of BC Housing and the not for profit housing providers. VanMar consistently conduct themselves with integrity and professionalism. We look forward to VanMar's continued involvement in the delivery of non market housing in BC.

Yours Truly

  
Craig Crawford  
Vice President, Development Services  
BC Housing
