To Whom It May Concern:

Re: Retail - Commercial Construction

We are pleased to recommend Van Maren Construction as a General Contractor or Construction Manager for retail-commercial shopping centre projects.

Van Maren recently completed Bakerview Home Centre for us at 1425 Sumas Way in Abbotsford. The quality of construction is excellent and the building was completed on time. We are most pleased however with the final cost because it was built under our budget.

We have no hesitation in highly recommending Van Maren Construction for any retail-commercial project.

Yours truly,

Randy Shier

Vice President
